ACADEMIC REGALIA

"(The) wearing of gowns by judges, ministers, teachers, and scholars is an ancient and impressive custom....As the graduating students of American high schools, colleges, and universities march in academic procession on Commencement Day to receive their diplomas or degrees, they, too, (and perhaps, for some, only this once in their lives) wear the caps and gowns of this long tradition....For a moment, they are wearing an ancient regalia, the proud badge of belonging to a great profession, that of student. Holding hands with students past and students present in a chain which goes back into history. Every detail should be keyed to stress the occasion as adventure, a turning point, something memorable and important."

Frank C. Baxter
Professor Emeritus of English
University of Southern California

At the end of the 19th century, colleges and universities in the United States were developing the kind of ruleless academic costume that emerged from the centuries in Great Britain. There and in the dominions, each university adopted its own costume without regard to what other institutions had done. The result was a confusing array of caps, gowns, and particularly hoods, each one of which must be separately memorized.

Recognizing this problem, American institutions responded in 1895 by creating an intercollegiate commission to consider a uniform code for academic costume. The resulting Intercollegiate Code regulated the design or pattern of gowns and hoods and the colors and materials to be used. The code was subsequently adopted by almost all of the colleges and universities in the country. It is still in use today, although slightly modified by successor committees appointed by the American Council on Education.

Gowns

The code provides for three types of gowns. Those for bachelor's students are made of black material and have long, pointed sleeves. They should be worn closed. The master's gown, also black, is made with an oblong sleeve, open at the wrist. The rear part of its oblong shape is square cut, and the front part has an arc cut away. It is also worn closed. In 2018, the university unveiled new custom regalia for bachelor's and master's students. The new gowns feature a cardinal band and the USC shield on the sleeves, along with cardinal piping. The custom regalia highlights the prestigious brand of USC in an elegant and timeless manner.

The doctor's gown is an elaborate costume marked by velvet panels down the front and around the neck and by three bars of the same material on the bell-shaped sleeves. It is cut much fuller than the other gowns and may be ornamented in color. (As a matter of practice, except in the areas of philosophy and law—dark blue and purple, respectively—faculty colors are rarely seen on the gown.)

The standard cap and gown are almost universally worn, but there are some outstanding deviations, including Harvard, Princeton, Yale, Stanford, Columbia, New York, Chicago and the University of Southern California. Cardinal and gold doctoral gowns were proposed for the university's centennial by Dr. Jerome B. Walker, centennial director, in 1980. Cardinal gowns with yellow velvet panels were first worn during President James H. Zumberge's inauguration in May 1981. For President Steven B. Sample's 1991 inauguration, the design for doctoral gowns was modified, adding red velvet panels framed by bright gold braids.

Caps

Although there is an exception, rarely seen, for women that allows them to wear a soft cap, the mortarboard or Oxford-type cap is worn. Only the doctor's cap may be made of velvet. The tassel worn with the cap has three variations: (1) it may be black for any degree, (2) it may be in the color of the faculty (field of learning) in which the degree was granted, or (3) doctors and governing officials, only, may wear a tassel of gold metallic thread. Black tassels are worn at USC for all bachelor's and master's degrees.

The cap is an essential part of the academic costume and is worn with it at all times except, of course, when the men remove theirs during prayer or during the playing of the national anthem. The gold tassel of the doctor's cap is so fastened that it drapes over the left front quarter of the cap. From this design, it has become customary to leave the tassel draped over the left temple at all times.

Hoods

Of all the components of the costume, the hood is the most symbolic. It makes clear the level of the degree, the faculty in which it was given and the institution which awarded it. The level of the degree is shown by the size of the hood, the width of the velvet trimming, and in the case of the doctors, by the shape. The hood is lined with the colors of the school awarding the degree; at USC, the silk lining is gold with a cardinal chevron. The color of the velvet band around the hood shows the department in which the wearer has taken his or her degree. All master of arts (white) and master of science (gold) degrees are bestowed by the Graduate School. The color of the velvet band around the hood for all PhDs is dark blue. Specialty degrees have individual colors based on the degree earned.

The academic regalia worn by the participants in the commencement ceremony is not merely costume. It represents an unbroken chain uniting students and scholars since the Middle Ages.

Presidential Medallion of Office

The medallion of office is worn by the president over his official regalia at ceremonial occasions. It was created by Associate Provost Jerome B. Walker for the inauguration of President James H. Zumberge on May 10, 1981 to serve as a tangible symbol of the authority vested in the president by the Board of Trustees. For his 1991 inauguration, President Steven B. Sample asked Dr. Walker to design the medallion's current chain, which consists of shields identical to that found in the university seal, linked together 16 times.

The front of the medallion depicts the university seal in full, and the back lists the name of the current president and the date of his inauguration. Each president keeps his medallion after retirement. For his 2010 inauguration, Dr. C. L. Max Nikias directed that two copies of the medallion be created. One copy will be worn by the president at appropriate events, while the other will be displayed in the Office of the President. The displayed medallion will include the name of each of the past presidents of USC engraved on the links of its chain.

University Mace

The mace is a ceremonial scepter symbolizing the authority of the Office of the President. The president of the faculty has the honor of serving as mace bearer in all academic processions for commencements and other official university ceremonies.

The university mace was first used at the inauguration of President Norman Topping on October 28, 1958. The mace was designed and crafted by the renowned master silversmith, USC alumnus and professor emeritus Hudson Roysher. The head of the mace depicts the university seal. Encircling the head of the mace is the hand-engraved inscription, "1880 University of Southern California." The names of the university's past presidents and the current president are engraved on the bowl. The crowning ornament is a depiction of the walled city of Troy. The mace is permanently displayed in the Office of the President.

Marshals' Batons

Designed for the inauguration of Dr. C. L. Max Nikias as 11th president of the university, a baton is carried by every marshal in the official procession. The batons are carved from walnut, with the university seal mounted in gold at the top. The fluted shape of the baton evokes the torch of learning, which is also found on the university seal.

At the University of Southern California, marshals are traditionally chosen from the ranks of the faculty to lead the student procession at the New Student Convocation and Commencement. The university marshal and the president of the faculty march at the head of the procession.

Trustee Gowns

The cardinal robes of office worn by university trustees were designed by Dr. Jerome B. Walker for President James H. Zumberge's 1981 inauguration. Reminiscent of the university's doctoral gowns, the trustee robes feature red velvet front panels and chevrons on the sleeves. Bright gold piping outlines both the panels and the chevrons. Each of the front panels features an embroidered shield on the lapel, taken from the university seal. The trustees wear a doctoral hood lined with USC's traditional gold satin with a cardinal chevron. The hood has a red velvet collar representing the university, in place of a faculty color representing a single discipline.

The university marshal wears a special gown that serves as a bridge between the trustee robes and the university's doctoral gown, with the university seal embroidered on the lapel.

ACADEMIC SYMBOLS OF THE UNIVERSITY

Original University Seal
The university's original seal was developed in 1884 to emboss the diplomas of the school's first graduating class. This seal depicted the year of USC's founding (1880) emblazoned on a scroll next to a palm tree (in heraldry, a symbol of righteousness and victory), with the name of the institution inscribed around the border.

1908 Seal
At the behest of university administrators in 1908, Jesse Ray Miller devised a new seal that introduced USC's official flower, the California poppy, a heraldic symbol of remembrance, hope, joy and growth. The seal also included a shield bearing a setting sun and three torches. In heraldic tradition, the torch symbolizes learning, and the three torches displayed here represented learning in the arts, the sciences and philosophy. The setting sun signified the West, and according to heraldic symbolism, power and life. Finally, enfolding the shield was a scroll displaying the university's new motto, "Palmam Qui Meruit Ferat." Freely translated, it means: "Let him bear the palm who merits it."

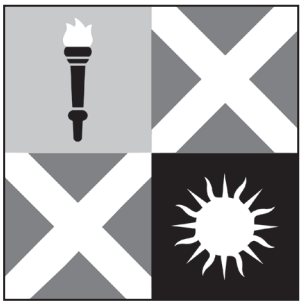
Current Seal of the University of Southern California
In 1948, the USC Board of Trustees approved an updated version of the university seal. In this version, the poppies appear next to the shield inside the outer band, which is now formatted as a scroll. The Latin motto is inscribed on a separate scroll at the base of the seal. This seal continues to be the imprimatur, or official signature, of USC to this day.

HERALDIC FLAGS

Originally designed by Dr. Jerome B. Walker for President James H. Zumberge's 1981 inauguration, heraldic flags for each academic degree-granting unit are displayed at commencements and other academic convocations. These flags, carried by students, precede the faculty in the procession. By a long-standing tradition, most academic disciplines have used an identifying color, which is displayed on academic hoods to indicate the subject area in which the wearer obtained the degree. These identifying academic colors are used in the banners of the various schools and divisions of the university.

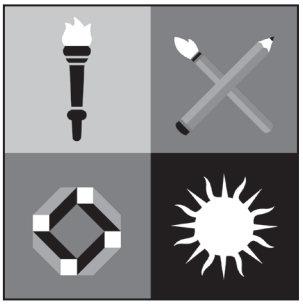
Found in the university seal, the torch of knowledge is a clear and honorable symbol, well suited to an institution of higher learning, and is one of the charges on the university's official seal. The university seal also contains a sun. Known as a "sun in its splendor," it has a perimeter featuring alternating straight and wavy rays. The straight rays represent the light and the wavy rays the warmth and affection that the university extends to its students and community. The torch and the sun are used to unite these disciplines under the flag of the University of Southern California.

College of Letters, Arts and Sciences
Academic colors: white for letters, gold for sciences. The wide-ranging fields over which this college functions are symbolized by the intimate intertwining of letters, arts and sciences in the heraldic pattern known as "gyronny." The torch of knowledge serves as a reminder that the college is the academic heart of the university.

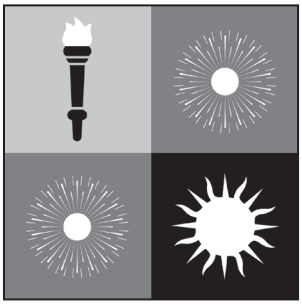


The Graduate School
Academic color: white for arts, gold for sciences, royal blue for the doctorate. In heraldry, the saltire (a corner-to-corner cross) symbolizes the very wide range of disciplines over which this school presides and which the saltire unites in one unit.

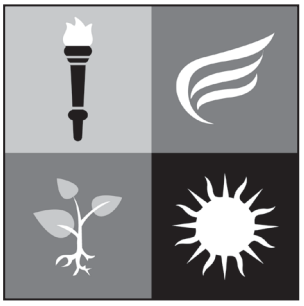
Architecture
Academic color: blue-violet. The Doric portico is used here as a symbol of beauty and proportions inspired by the early Greek architects, who continue to inspire the architect today. The modern bridge represents progress, connections and stability. The blue background, representing the sky, suggests the almost limitless scope of architecture.



Art and Design
Academic colors: brown for arts, white for letters. Here the symbols reflect two important branches of art and design. The paintbrush and pencil symbolize fine arts such as painting, drawing and sculpture. The abstract symbol, with its pixel-like design, reflects the emergence and evolution of digital arts.

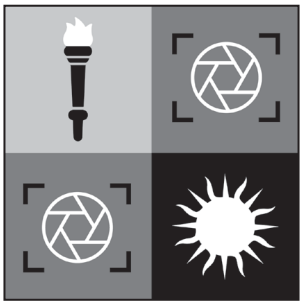


Arts, Technology and the Business of Innovation
Academic color: brown. The supernova, an astronomical event that occurs during stellar evolution causing the sudden appearance of a new, brighter star, represents the idea of disruption and the supreme energy exhibited by the founders and students of the academy. The flag's additional colors are described in heraldic language as metals: gold and bronze.

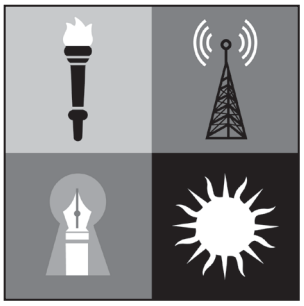


Bovard College
Academic color: white. The soaring sails symbolize confidence and agility in providing a student-centered approach to learning. The rooted plant is a symbol of the stability, growth and abundance of opportunity. Colors featured in the flag are rendered as metals—gold, silver and bronze—in traditional heraldic terms.

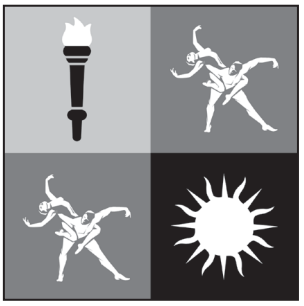
Business
Academic color: drab. The square figures that are symmetrically arranged on this flag are designed to symbolize the organizational characteristics of business in all its complexity. The interconnected sphere represents an enterprising and global approach to business.



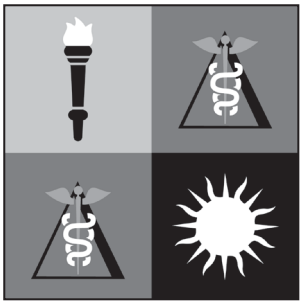
Cinematic Arts
Academic colors: brown for arts, white for letters. The six triangles represent the strength of the individual specialties, such as camera, editing, sound, writing, criticism and aesthetics, that form the larger discipline of cinematic arts. When combined, they form an aperture, at the center of which is the human eye, representing the mediation essential to the discipline.



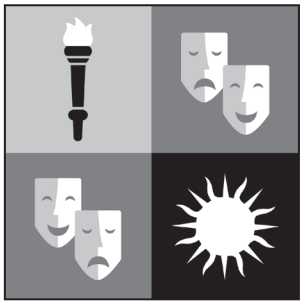
Communication and Journalism
Academic colors: crimson for communication, white for journalism. The three data waves emanating from the transmitter in both directions symbolize the fact that all communication has a threefold aspect—communicator, audience and medium—all of which are involved in the interplay and sharing of a message. The quill tip within the keyhole represents freedom of the press.



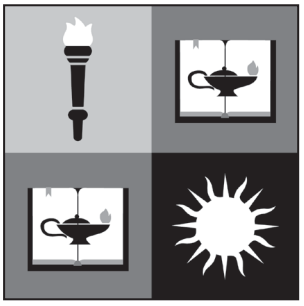
Dance
Academic color: amethyst. Dance is one of the oldest and most central expressions of humanity. The two interlocking figures represent creativity and innovation, and they capture the artistry of bodies in motion. The sun in its splendor represents the courage and power incumbent in authentic artistic creation, and white is the traditional heraldic color representing the arts and humanities.



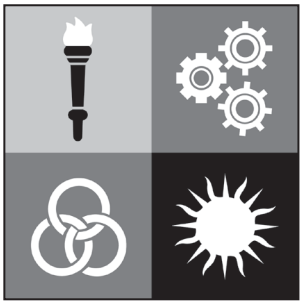
Dentistry
Academic color: lilac. Dentistry, like the other scholarly areas associated with health care, uses the traditional Asclepian staff and serpent—in this case, enclosed in a capital Greek letter, delta, an homage to the official emblem of dentistry.



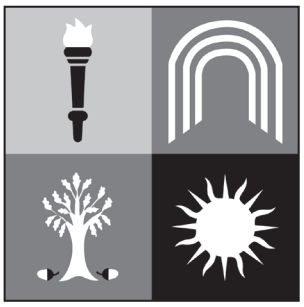
Dramatic Arts
Academic colors: brown for arts, white for letters. The classic emblem of comedy and tragedy is based on masks worn by actors in ancient Greek theater productions. They reflect not only the two main genres of the dramatic arts, but also the duality of the human experience.



Education
Academic color: light blue. The book, illuminated by the lamp of learning, is a very widely used, traditional symbol for education, and occurs in many shields of arms. The flame from the torch of knowledge illuminates the tip of the lamp.

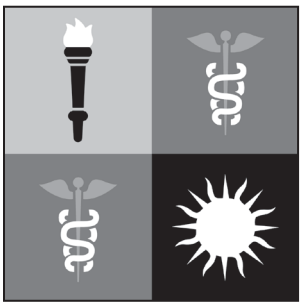


Engineering
Academic color: orange. The interlinked circles, inspired by the classic mathematical Borromean rings, join the cogs and gears in this flag to symbolize the way in which the profession of engineering interacts with math and the applied sciences to solve society's most pressing and wicked problems.

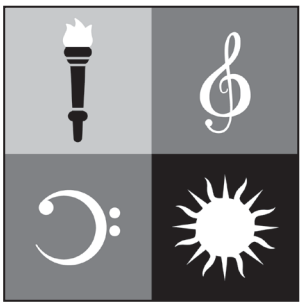


Gerontology
Academic color: white. The very characteristic architecture of this school is incorporated in the flag, along with the oak tree, symbolizing sturdiness and longevity, and acorns, representing the constant renewal of life.

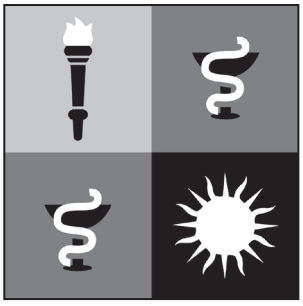
Law
Academic color: purple. The four points surrounding the gavel in this flag symbolize the levels at which the legal profession provides a bulwark and framework for our society: federal, state, county and local. The scales of justice reflect the fair and impartial balance sought by the law.



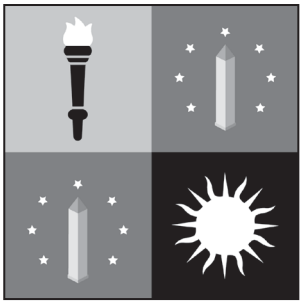
Medicine
Academic color: green. The staff of Asclepius, the Greek god of medicine, around which is entwined the harmless snake beloved of Asclepius, has been the symbol of medicine for many centuries.



Music
Academic color: pink. Music is a universal means of communication between human beings, linking the past, present and future. The treble and bass clefs symbolize music expressed in all its forms and styles, vocal or instrumental.



Pharmacy
Academic color: olive. Pharmacy is symbolized by the bowl of Hygeia, the Greek goddess of health, coupled with the Asclepian serpent, showing the intrinsic relationship between pharmacy and medicine.

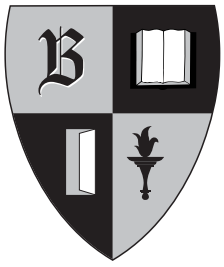


Public Policy
Academic color: peacock blue. The school's work is represented in triads, reflecting the intersection of three sectors, three levels of government, three locations and three levels of degree programs. The three shapes that come together to form the obelisk evoke those triads. The symbol of the obelisk surrounded by stars reflects structure, security and liberty.

Social Work
Academic color: citron. As symbolized by outstretched hands cradling the globe, social work by its very nature is about embracing our connections as human beings and inspiring the spirit of compassion and mutual respect that assists individuals and communities in reaching their full potential.

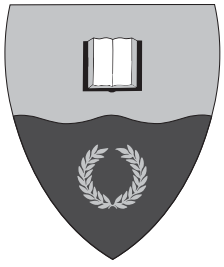
RESIDENTIAL COLLEGES

The University of Southern California transformed its housing for freshmen into residential colleges in 2012, bringing special cultural programming, academic opportunities and mentoring from faculty members to many more students. Along with this shift, the university unveiled official crests to represent each of these new colleges. Some echo the history of the university and its architecture, whereas others evoke the emerging themes of these new communities. All 14 crests are anchored in USC's identity, echoing elements from the university's official seal and embracing cardinal and gold as their dominant tones.

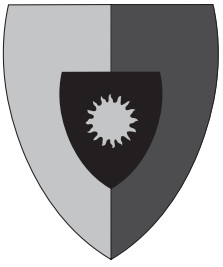


Birnkrant
Dubbed "seven floors of open doors" for its social atmosphere, this college currently houses freshmen who are Trustee, Presidential and Mork Family scholars. The crest features a "B" for Birnkrant, the torch of knowledge, a book and an open door.

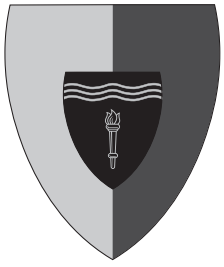
Bohnett
A community built around a core ideal of social action through entrepreneurship, this college embraces students seeking innovative solutions to social issues around the world. The torch of knowledge is framed by a chevron, a classic symbol of dutiful and benevolent service.



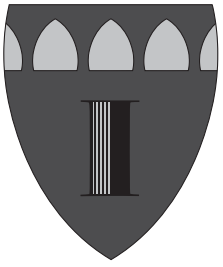
Cale
Home to scholars interested in global exploration, this community encourages cross-cultural interaction and critical dialogue regarding the ever-changing international landscape. Its symbols, the book and the wreath, reflect the exchange of ideas and triumph of humanity.



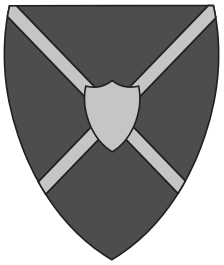
Cowlings
This college has arts and cultures as its thematic focus, with an emphasis on the wealth of cultural experiences at USC and throughout Los Angeles. Residents are inspired to awaken their inner cultural explorer, reflected by the sun in its splendor contained within the crest.



Ilium
A community for sophomore honors students, this college brings together scholars who share a commitment to rigorous intellectual and academic achievement. Its crest emphasizes the torch of knowledge, a classic symbol that has been part of the university's graphic identity since its inception.

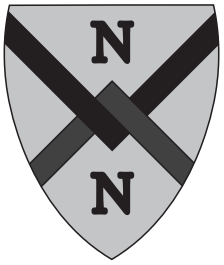


Irani
This college focuses on performance science; students living in this community explore their untapped potential in learning how to break down barriers inhibiting leadership, decision-making, resilience or creativity. The pillar reflects stability and strength of character, and the windows along the upper portion of the crest echo architectural details at USC Village.

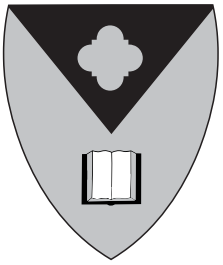


McCarthy Honors
Endowed by the Thomas and Dorothy Leavey Foundation, this college provides a home for exceptional scholars. The crest's design is inspired by McCarthy Quad, which was named in honor of Leavey Foundation Chair Kathleen Leavey McCarthy '57.

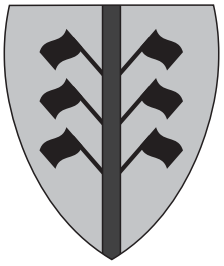
Nemirovsky
This college is home to students dedicated to sustainability and societal engagement. Its crest features the poppy, a symbol of growth and hope featured in the university seal, and pillars and a cornerstone, evoking the foundation of something lasting and monumental.



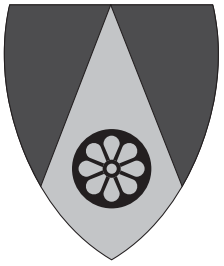
New North
This college is a hub of activity and combines two closely connected buildings. The crest's interlocking angles, a classic heraldic shape, symbolize a collaborative environment.



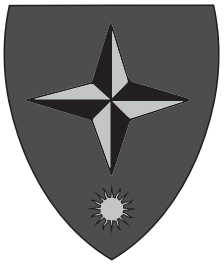
Parkside Arts and Humanities
This creative community is home to students of music, art and literature. It's known for its performance and practice spaces. The crest draws from the surrounding landscape of Mudd Hall and Hahn and Nazarian plazas.



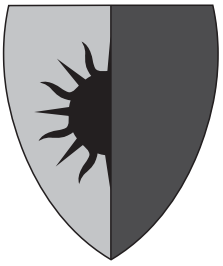
Parkside International
Global issues are a focus for this community, which includes many students from other nations. A display of flags on the crest represents the international traditions celebrated at the college.



Priam
This community is a bastion of innovation, encouraging scholars to embrace their passions for technology, science and design. Residents seek solutions to global challenges through creativity and novelty, a spirit emphasized in the crest's playful symbol.



South
Home to residents with a passion for social change, this community is represented by a compass rose, signifying exploration. The college includes residents of Marks and Trojan halls and Pardee and Marks towers.



West
West comprises two neighboring towers, Webb and Fluor. The college's crest shows two adjoining colors, with the sun setting to the west.

Candidates for Degrees and Certificates

December 16, 2020 / May 14, 2021 / August 10, 2021
The University of Southern California has one commencement ceremony per year and provides a program listing all eligible candidates for that year. Only candidates who are eligible for graduation during the semesters listed above are published in the May commencement program.

Dissertation: Effects of Language Familiarity on Talker Discrimination from Syllables

Jasmine Anaiis Berry, Computer Science, B.S., Norfolk State University; M.S., University of Southern California
Dissertation: Sensory Acquisition for Emergent Body Representations in Neuro-Robotic Systems

Kristen Elizabeth Besinque, Comparative Studies in Literature and Culture, B.A., M.A., University of Southern California
Dissertation: Identity Trouble: National Bodies and French Hospitality

Anna Emilia Blanken, Psychology, B.A., Pomona College; M.A., University of Southern California

Gifford Edward Reed Blaylock, Linguistics, B.A., University of Michigan, Ann Arbor; M.A., University of Southern California
Dissertation: Vocal Music Phonetics and Phonology

Simon Blessenohl, Philosophy, B.A., Cambridge University, United Kingdom

Yannick Bliesener, Electrical Engineering, B.S., Technische Universitat Hamburg-Harburg, Germany
Dissertation: Measurement Uncertainty in Dynamic Contrast Enhanced MRI of Brain Tumors

Jacob Bushnell Bohrod, Cinematic Arts, B.S., Minnesota State University, Mankato; Grad.Cert., M.A., University of Southern California

Kenneth McCarthy Bolster, Geological Sciences, B.A., B.S., University of Texas at Austin
Dissertation: Anaerobic Iron Cycling in Oxygen Deficient Zones

Alfred Eugene Joseph Brown IV, Literature and Creative Writing, B.A., Princeton University; M.F.A., Columbia University
Dissertation: In Defense of Prose / Concrete Flag

Doctor of Philosophy (continued)

Matthew Bui, Communication, B.A., University of California, Los Angeles; M.S., London School of Economics and Political Science, United Kingdom; M.A., University of Southern California
Dissertation: (Re)Claiming the "Smart" City: Refusing Data Harms, Re-using Commercial Data for Racial Justice

Evgeny Burinskiy, Urban Planning and Development, B.A., University of California, Berkeley
Dissertation: Insights into Residential Mobility and Pricing of Rental Housing

Christiana Dodd Butera, Occupational Science, B.A., Wheaton College; M.Ed., Harvard Graduate School of Education
Dissertation: Behavioral and Neural Influences of Interoception and Alexithymia on Emotional Empathy in Autism Spectrum Disorders

Saakar Byahut, Aerospace Engineering, B.S., Dartmouth College; M.S., University of Southern California
Dissertation: Modeling and Analysis of Propulsion Systems and Components for Electrified Commercial Aircraft

Luis Felipe Cabezon, Business Administration, B.A., M.A., Pontificia Universidad Catolica de Chile
Dissertation: Executive Compensation: The Trend Toward One Size Fits All

Xiaoyu Cai, Biology of Aging, B.S., Peking University, China

Brian Allgood Cantrell, Cinematic Arts, B.F.A., Austin Peay State University; M.F.A., University of South Carolina

Nathan Robert Carroll, Geological Sciences, B.S., Montana State University
Dissertation: Insights into the Evolution of Dinosaur Flight Feathers from 3D Data

Tarryn Kim Cawood, Geological Sciences, B.S., M.S., Stellenbosch University, South Africa
Dissertation: Crustal-scale Ductile Shear Zones in Four Dimensions

Justin Cayford, Molecular Biology, B.S., University of California, Irvine

Avik Chakraborty, Physics, M.S., Indian Institute of Technology – Bombay/Powai, India
Dissertation: Black Hole Heat Engines, Subregion Complexity and Bulk Metric Reconstruction

Swarnabha Chattaraj, Electrical Engineering, B.Engr., Indian Institute of Technology – Kharagpur, India

Andrew Chavarin, Mechanical Engineering, B.S., University of California, Irvine; M.S., University of Southern California
Dissertation: Model Based Design of Porous and Patterned Surfaces for Passive Turbulence Control

Dongyu Chen, Electrical Engineering, B.S., Peking University, China
Dissertation: Optical Simulation and Development of Novel Whispering Gallery Mode Microresonators

Huo Chen, Electrical Engineering, B.S., Beijing University of Posts and Telecommunications, China; M.S., Stanford University
Dissertation: Theory and Simulation of Hamiltonian Open Quantum Systems

Wenbo Chen, Biomedical Engineering, B.S., Northeast Agricultural University, China; M.S., Case Western Reserve University

Xi Chen, Development, Stem Cells and Regenerative Medicine, B.S., Shanghai Jiao Tong University, China
Dissertation: Understanding the Molecular Mechanisms Controlling the Self-renewal of Embryonic Stem Cells from Different Species

Yi-Hsiang Chen, Physics, B.S., M.S., National Cheng Kung University, Taiwan
Dissertation: Destructive Decomposition of Quantum Measurements and Continuous Error Detection and Suppression Using Two-body Local Interactions

Yun-Ju Chen, Occupational Science, B.S., National Taiwan University
Dissertation: Developmental Trajectories of Sensory Patterns in Young Children With and Without Autism Spectrum Disorders: A Longitudinal Population-based Study from Infancy to School Age

Yifang Cheng, Geological Sciences, B.S., Peking University, China; M.S., University of Oklahoma
Dissertation: Volumetric Interactions between Major Ruptures and Fault Zones Illuminated by Small Earthquake Properties

Valeriy Cherepakhin, Chemistry, B.S., Lomonosov Moscow State University, Russia

Chung Ming Cheung, Computer Science, B.Engr., University of Hong Kong
Dissertation: Data-driven Methods for Increasing Real-time Observability in Smart Distribution Grids

Gabrielle Lai Ting Cheung, Political Science and International Relations, B.A., University of London, United Kingdom
Dissertation: Ambition in World Politics: The Domestic Sources of Global Economic Integration

Heejin Cho, Public Policy and Management, B.A., University of Texas at Austin; M.P.A., Seoul National University, South Korea
Dissertation: Goal Setting and Performance in Federal Agencies

Carolyn Choi, Sociology, B.A., University of California, Los Angeles; M.S., London School of Economics and Political Science, United Kingdom

Grace Wingyun Chong, Molecular Biology, B.A., Concordia University-Irvine
Dissertation: From Single Molecules to Bacterial Nanowires: Functional and Dynamic Imaging of the Extracellular Electron Transfer Network in Shewanella oneidensis MR-1

Doctor of Philosophy (continued)

Victoria Chonn Ching, Political Science and International Relations, B.A., M.A., University of Michigan, Ann Arbor; M.A., University of Southern California
Dissertation: Economic Policy-Making in a Changing Environment: The Politics of Success in Peru vis-a-vis China

Gunce Ezgi Cinay, Biomedical Engineering, B.S., Istanbul Technical University, Turkey; Grad.Cert., University of Southern California; M.S., Koc University, Turkey

Justin Lee Clough, Mechanical Engineering, B.S., Milwaukee School of Engineering
Dissertation: Deformation of Structures Modeled with Creep and Multiplicatively-Decomposed Plasticity in High Speed Flow

Jose Gregorio Cobena Reyes, Chemical Engineering, B.Engr., M.B.A., Universidad of Guayaquil, Ecuador; M.B.A., Escuela Superior Politecnica del Litoral, Ecuador; M.S., University of Southern California
Dissertation: Dynamics of Water in Nanotubes: Liquid Below Freezing Point and Ice-like near Boiling Point

Benjamin Garrett Cohen, Health Economics, B.A., Pitzer College; M.P.H., Columbia University
Dissertation: The Costs and Benefits of Spending in Chronic Conditions

Giorgos Constantinou, Computer Science, B.S., University of Cyprus; M.S., University of Southern California

Geoffrey Winston Corner, B.S., New York University; M.A., University of Southern California

George Courcoubetis, Physics, B.S., University of California, Santa Cruz
Dissertation: Patterning and Growth in Biological Systems: A Computational Exploration of Biological Robustness, Epithelial Growth Dynamics and Development

William Joseph Cowan, History, B.A., M.A., University of California, Riverside
Dissertation: The Pacific Slope Superstorms of 1861-1862

Ignacio Fernandez Cruz, Communication, B.S., University of Texas at Austin; M.A., University of Southern California

Yuehan Wang, Communication, B.A., Shandong University, China; M.S., Boston University; M.A., University of Southern California
Dissertation: Making of China's Technology Hub: Shenzhen Cultures, Institutions, Development and Innovation

Ruoqing Rachelle Wang-Cendejas, Sociology, B.A., University of Texas at Austin; M.A., Johns Hopkins University

Alicia Marie Paiva Warnecke, Clinical and Experimental Therapeutics, B.S., Syracuse University
Dissertation: Evaluation of P2X4 Receptor Modulation as a Novel Approach for Treating Parkinson's Disease

Thomas McGarvie Watson, Comparative Studies in Literature and Culture, B.A., Lawrence University; M.A., University of Southern California
Dissertation: The Poetics of Disillusionment: The Legacy of the Eighteenth-Century Ceremonial Ode in Nineteenth-Century Russian Lyric Poetry and Pastoral Prose

Lan Wei, Computer Science, B.Engr., Sichuan University, China; M.S., Chinese Academy of Sciences, China
Dissertation: Anycast Stability, Security and Latency in the Domain Name System (DNS) and Content Delivery Networks (CDNs)

Xin Wei, Engineering, B.Engr., Beijing Normal University, China; M.S., Carnegie Mellon University; M.S., University of Southern California
Dissertation: Synergistic Systems for Desalination and Potable Reuse: Novel Configurations for Energy Consumption

Lisa Welter, Molecular Biology, B.S., M.S., Universiteit Maastricht, Netherlands

Malcolm Charles Adan White, Geological Sciences, B.S., Carleton University, Canada
Dissertation: Seismic Velocity Structure and Spatiotemporal Patterns of Microseismicity in Active Fault Zones of Southern California

Zachary David Wickham, Mathematics, B.S., University of California, Los Angeles; M.A., University of Southern California
Dissertation: Parameter Estimation Problems for Stochastic Partial Differential Equations from Fluid Dynamics

Brittany Danielle Williams, Public Policy and Management, B.A., Duke University; M.P.P., American University
Dissertation: Innovation and Good Intentions: Evaluations of Three Cross-sectoral Programs for At-risk Populations in Southern California

Kristi Michelle Wisniewski, Gerontology, B.S., University of Alabama, Tuscaloosa
Dissertation: Subjective Memory Complaint: A Screening Measure for Cognitive Decline

Vivian Wong, Business Administration, B.A., University of California, Berkeley; M.A., Johns Hopkins University – School of Advanced International Studies
Dissertation: The Changing Policy Environment and Banks' Financial Decisions

Ming-Sung Wu, Materials Science, B.S., M.S., National Taiwan University; Grad.Cert., University of Southern California
Dissertation: The Reuse and Recycling Strategies for Fiber Reinforced Polymer

Wenqian Wu, Applied Mathematics, B.S., Shanghai University of Finance and Economics, China; M.S., M.S., University of Southern California
Dissertation: Set-Valued Stochastic Differential Equations

Yimeng Xie, Economics, B.A., Beijing Normal University, China; M.A., University of Southern California

An Xin, Civil Engineering, B.Engr., M.Engr., Beihang University, China
Dissertation: Bacteria Assisted Remodeling of Engineering Materials

Jianhui Xu, Public Policy and Management, B.L., B.A., Peking University, China; M.P.P., University of Southern California

Yang Xu, Industrial and Systems Engineering, B.Engr., M.Engr., Beihang University, China
Dissertation: A Multi-material Vat Photopolymerization Process for Viscous Photocurable and Non-photocurable Materials

Yusi Xu, Communication, B.A., Peking University, China; M.S., London School of Economics and Political Science, United Kingdom; M.A., University of Southern California
Dissertation: Consuming Intimacy through PUA: Social Media Narratives and the Sociotechnical Politics of Structural Gendered Violence in the Aftermath of #METOO

Si Xuan, Health Economics, B.S., University of Delaware; B.A., Southwestern University of Finance and Economics, China; M.P.H., Yale University

Xiaodong Yan, Electrical Engineering, B.S., Peking University, China; M.S., University of Notre Dame
Dissertation: Low-Dimensional Material Based Devices for Neuromorphic Computing and Other Applications

Hsin-Yun Yang, Health Economics, B.S., Taipei Medical University, Taiwan; Grad.Cert., M.S., University of Southern California

Louis Zihan Yang, Business Administration, B.S., University of Pennsylvania
Dissertation: Picky Customers and Expected Returns

Shiming Yang, Political Science and International Relations, B.A., University of Virginia
Dissertation: A Global South Divided: Developing Countries in International Environmental Politics

Sisi Yang, Physics, B.S., University of Science and Technology of China
Dissertation: Transient Pulsed Plasma-based Pollution Treatment

Yue Yang, Communication, B.A., Sun Yat-sen University, China; M.A., Loughborough University, United Kingdom; M.A., University of Southern California
Dissertation: Remaking Health Publics/Professionals: Mediated Controversies and Contestations around Medical Institutions and Civil Society in Post-Socialist China

Doctor of Philosophy (continued)

Mengsha Yao, Applied Mathematics, B.S., M.S., Dalian University of Technology, China; M.S., University of Southern California
Dissertation: Linear-Quadratic Gaussian (LQG) Control, Estimation, and Tracking for Abstract Random Parabolic Systems with Applications to Transdermal Alcohol Biosensing

Yu Yao, Physics, B.S., University of Science and Technology of China
Dissertation: Emulating Quantum Dynamics via Neural Networks

Sarah Katherine Yeomans, Art History, B.A., University of California, San Diego; M.A., University of Sheffield, United Kingdom; M.A., University of Southern California
Dissertation: Roman Civic Medicine: The Archaeology of Practices and Practitioners in the Imperial Age

Xusen Yin, Computer Science, B.S., Beijing Information Science and Technology University, China; M.Engr., Beijing University of Posts and Telecommunications, China
Dissertation: Generalized Sequential Decision-Making for Novel Tasks: A Text Game Playing Perspective

Ka Wa Yip, Physics, B.S., University of Hong Kong; M.S., Miami University
Dissertation: Open-System Modeling of Quantum Annealing: Theory and Applications

Seung Yeon Yoo, Business Administration, B.B.A., Yonsei University, South Korea; M.S., Indiana University, Bloomington
Dissertation: Essays on the Firm and Stakeholders Relationships: Evidence from M&A Transactions and Labor Negotiations

Eugene Yoon, Biomedical Engineering, B.S., Johns Hopkins University; Grad.Cert., M.S., University of Southern California

Yoewon Yoon, Social Work, B.A., M.S.W., Yonsei University, South Korea
Dissertation: Childhood Adversity across Generations and its Impact on Externalizing Behavior

Ashley Simone Young, Cinematic Arts, B.A., University of California, Santa Cruz; M.A., University of Southern California
Dissertation: "I Can't Afford the Luxury of Being Just an Actress": The Politicized Work of African American Actresses on Television

Haoze Yu, Development, Stem Cells and Regenerative Medicine, M.S., Ocean University of China
Dissertation: Transcriptional and Epigenetic Mechanisms Underlying Sensory Hair Cell Differentiation and Regeneration

Kexin Yu, Social Work, B.S., Zhejiang University, China

Pen-Ning Yu, Biomedical Engineering, B.S., National Taiwan University

Zhou Yu, Economics, B.S., Zhejiang University, China

Xiaoshu Zeng, Civil Engineering, B.Engr., M.Engr., Tongji University, China; B.Engr., Hunan University, China
Dissertation: Dynamic and Stochastic Reductions for Large Scale Models of Multi-Component Systems

Aoyang Zhang, Electrical Engineering, B.Engr., Zhejiang University, China
Dissertation: Silicon-Based RF and Mm-Wave Power Amplifier and Transmitters for Future Efficient Communication Systems

Haiyang Zhang, Molecular Biology, B.S., Suzhou University, China
Dissertation: Subnuclear Localization of Replication Origins Is Controlled by Fkh 1-Dependent Recruitment of DDK to Origins in S. cerevisiae

Jianwei Zhang, Electrical Engineering, B.Engr., Lanzhou University of Technology, China; M.S., M.S., University of Southern California
Dissertation: Automatic Test Generation System for Software

Junting Zhang, Electrical Engineering, B.Engr., Xiamen University, China; M.S., University of Southern California
Dissertation: Image Knowledge Transfer with Deep Learning Techniques

Mengxia Zhang, Business Administration, B.A., MMGMT, Peking University, China
Dissertation: Essays on Artificial Intelligence and New Media

Xiaobei Zhang, Psychology, B.S., Beijing Normal University, China; M.A., University of Southern California

Yinqi Zhang, Economics, B.S., University of International Business and Economics, China; M.P.P., University of Southern California

Zhengyu Zhang, Industrial and Systems Engineering, B.S., Shanghai Jiao Tong University, China
Dissertation: Some Bandit Problems

Lurui Zhao, Electrical Engineering, B.S., Peking University, China; M.S., University of Southern California
Dissertation: Magnetic Spring in Electromagnetic Vibration Energy Harvester and Applications of Focused Ultrasonic Transducer

Shan Mu Zhao, American Studies and Ethnicity, B.A., University of Toronto, Canada; M.A., McMaster University, Canada; M.A., University of Southern California
Dissertation: America's Antifans: East Asian Popular Culture, American Fans, and National Transformations

Xiaoxi Zhao, Petroleum Engineering, B.S., Wuhan University, China; M.S., M.S., University of Southern California

Yixue Zhao, Computer Science, B.Engr., Harbin Institute of Technology, China; M.S., University of Southern California
Dissertation: Reducing User-Perceived Latency in Mobile Applications via Prefetching and Caching

Zhe Zhao, Electrical Engineering, B.S., Huazhong University of Science and Technology, China

Doctor of Philosophy (continued)

Long Zheng, Medical Biology, B.Engr., MMED, Wenzhou Medical College, China
Dissertation: LYM-1 Epitope Targeted Chimeric Antigen Receptor (CAR) T Cells for the Immunotherapy of Cancer

Aner Zhou, Business Administration, B.S., MMGMT, Peking University, China
Dissertation: Misconduct by Repeat Offenders in the Financial Advisory Industry

Guoqing Zhou, Physics, B.S., University of Science and Technology of China
Dissertation: Theoretical Modeling of Nanoscale Systems: Applications and Method Development

Yunan Zhou, Industrial and Systems Engineering, B.A., Wuhan University, China; M.S., M.S., University of Southern California
Dissertation: Stochastic Games and Expected-Value Constraints

Feng Zhu, Geological Sciences, B.S., Nanjing University of Information Science and Technology, China; M.S., University of Wisconsin – Madison
Dissertation: Seeing the Future through the Lens of the Past: Fusing Paleoclimate Observations and Models

Linna Zhu, Public Policy and Management, B.A., Renmin University of China
Dissertation: Aging, Wealth, and Housing Tenure Transitions

Yingying Zhu, Public Policy and Management, B.A., Peking University, China; M.P.P., University of Southern California

Zimu Zhu, Applied Mathematics, B.S., Fudan University, China
Dissertation: Some Topics on Continuous Time Principal-Agent Problems

Sulafa S. Zidani, Communication, B.A., Hebrew University of Jerusalem, Israel; M.A., University of Southern California
Dissertation: Trendy or Transformative? How the Global Meme Elite Creates Social Change in the Multilingual Internet

Jennifer Ann Zink, Preventive Medicine, B.A., University of Miami

Angineh Zohrabian, Engineering, B.S., Isfahan University of Technology, Iran; M.S., Sharif University of Technology, Iran
Dissertation: Evaluating the Role of the Water-Energy Nexus in California's Transitioning Power Sector

Kelebogile Zvobgo, Political Science and International Relations, B.A., Pomona College
Dissertation: Governing Truth: NGOs and the Politics of Transitional Justice

SPECIAL AWARDS

Academic Honors

Valedictorian

Every university has its own set of traditions for selecting commencement speakers and honorees. The custom at the University of Southern California is to name one student as the valedictorian and one or more students as salutatorians. The valedictorian delivers the address on behalf of the graduating class at the university's commencement ceremony.

The selection process at USC differs considerably from that of most high schools, where recognition is based solely on cumulative grade point average. Under that system, the valedictorian and salutatorian are ranked first and second, respectively, in their class. USC's process recognizes the highest levels of academic achievement, while taking a more holistic view of a student's time at the university.

All graduating students who have earned a cumulative USC grade point average of 3.98 or higher as of the conclusion of the fall semester are invited to apply to be named valedictorian. A panel of senior faculty members, drawn from across the university, reviews all applications, with the selection based on the following factors:

Grade point average
Number of course units completed at USC
Breadth of academic program
Challenge of academic program
Contribution to university and community life

Tianna Bernette Shaw-Wakeman, *Psychology*

Steven and Kathryn Sample Renaissance Scholars

Steven and Kathryn Sample Renaissance Scholars are students who graduate with a major and minor or two majors that are in widely separated fields of study. A faculty panel certifies the breadth of their academic programs. To earn this academic honor, students must graduate with no less than a 3.5 overall grade point average and no less than a 3.5 grade point average in at least two distinct fields of study. Each year, 10 Renaissance Scholars are selected to receive a $10,000 prize toward graduate study.

Warren Bennis Scholars

The Warren Bennis Scholars Program is a university-wide initiative offered by the Office of the Provost through the Brittingham Social Enterprise Lab at the USC Marshall School of Business. Each year, 20 students across academic disciplines are selected at the end of their sophomore year to receive intensive leadership training and access to top USC professors. The program honors USC Distinguished University Professor Warren G. Bennis, an internationally recognized authority on leadership who mentored countless students during his distinguished 35-year career at USC.

Nationally Competitive Scholarships and Fellowships

Astronaut Scholarship

The Astronaut Scholarship Foundation's mission is to aid the United States in retaining its world leadership in technology and innovation by supporting the very best and brightest scholars in science, technology, engineering and mathematics while commemorating the legacy of America's pioneering astronauts. The Foundation awards over 50 scholarships annually, each worth up to $15,000, to exceptional college students who exhibit motivation, imagination, and exceptional performance in the science or engineering field of their major.

Zane Durante, *Computer Science & Applied and Computational Mathematics*

David L. Boren Scholarship for International Study

The David L. Boren Scholarship provides funding for U.S. undergraduate students studying in Africa, Asia, Central and Eastern Europe, Eurasia, Latin America and the Middle East. Boren Scholarships require rigorous language study, and the majority of awardees spend a full academic year overseas. In exchange for funding, Boren Scholarship recipients commit to working in the federal government for at least one year after graduation.

Student Recognition Awards

Order of the Laurel and the Palm
Exemplary leadership and high achievement characterize those selected for the Order of the Laurel and the Palm, the highest honor accorded to undergraduates completing their programs of study. Recipients display significant leadership that touches multiple facets of university life and have made notable contributions that leave a lasting impact on the university community or the world at large through their commitment to service and valuing of the university's highest goals and ideals. Less than one percent of undergraduates earning their degrees are selected for this honor.

Order of Areté

Areté, taken from the Greek, means virtue or excellence in attaining one's utmost human potential. Members of the Order of Areté have distinguished themselves among their peers through campus or community leadership roles beyond those required for their programs of study, often making notable contributions to the university, academic discipline, community or world at large. In these leadership roles, members demonstrate significant depth and scope of responsibility, and they are recognized for upholding value and meaning over individual achievement. The award represents the highest honor accorded graduate students upon completion of their academic programs.
